## Marco Fontana

### Architect, Construction Engineer and Urban Designer.

I am a hard worker and a fast learner, I am really good in learning new subjects because I like it. I love my work and I make it with love and passion as it is attested by the companies I worked for. I have done experience in volunteering and now I am working on creating a start up company in light design, which is based on my researches on parametric design. The attention for the details and the quality is very important to me as you can see from my CV.

## Places Where I worked/studied

## Experience

I am working as Industrial and interior designer for my company MarcoFontanaDesign. I invite you to visit my designer website to see my works: [www.marcofontanadesign.it](http://www.marcofontanadesign.it)

I worked for Maffei Engineering as Architect and Visual Programmer. I worked there for 3 months. In that period I worked on:

- Al Wakrah Stadium
- Al Rayyan Stadium
- Adana Stadium
- MBR Stadium in Dubai
- Lusail Tower
- Rottweil Test Tower
- New Stadium of Atletico Madrid

I was working as freelance and I worked as:

- Landscape designer,
- Architect for Team Pavia,
- 3D printing expert,
- Designer for Rizieri,
- Architect for RBB Risolve,

I worked as Freelance for 2 years and half.

I joint **RIALTO Ltd** as member in a team which was preparing the feasibility study for the project "Agri-Techno Villaggio" that will be realized in Peschiera Borromeo. I worked there for 3 months.
